

State-of-the-art Greenfield Data Centre

## Highlights of MEGA Plus

To foster Hong Kong as the prime location for data centres in Asia Pacific, the Government has set aside the 1st piece of land in Tseung Kwan O for high-tier data centres. iAdvantage has successfully bid a one-hectare site in 2013 to build its greenfield data centre of 470,000 square feet gross data centre space. MEGA Plus is the best choice for companies that are planning for long term investment with highest degree of stability and flexibility in running their business operation without any subletting or space licensing constraints. This greenfield site is away from the sea-front. It is not on flood zone with no hazardous goods in the vicinity.

MEGA Plus characterizes low-latency and high-availability best for multinational enterprises, cloud and IT service providers, telecommunications carriers and financial institutions. We strive for the best performance and a holistic data centre solution that our customers may enjoy the integrated world-class services provided by a team of industry experts. The purpose-built data centre is located in Kowloon East, another premier central business district of Hong Kong.

### Other Key Advantages:

- Fully configurable infrastructure equipped with world-class facilities
- Highly reliable and secure site location with ample power and space to cope with your business expansion
- No hazardous and inflammable production plants nearby
- Submarine cable landing station located nearby, fully diversified telecom network
- All expertise from property development, data centre modification to facilities management in one single cohesive team
