AWS Direct Connect Available on MEGA Campus in Hong Kong

Private • Secure • Efficient

sunevision

Take Hybrid Cloud Experience to the Next Level

With the AWS Direct Connect node available on MEGA Campus in Hong Kong, customers can establish private, secure and direct connections between AWS and MEGA-i, without going over the public internet. You can enjoy direct connectivity to the AWS Asia Pacific (Hong Kong) Region and other AWS Regions worldwide via Direct Connect Gateway.

Combined with the strong network ecosystem on MEGA Campus, AWS Direct Connect will enable customers to achieve:

Direct connection to your AWS workloads

Hybrid Cloud Experience
Realise a fully diversified hybrid cloud deployment with AWS Outposts by leveraging the strategic locations and fully redundant power supplies of our data centres campus

Cost Saving
Reduce local loop costs by establishing direct connections to AWS Direct Connect on MEGA Campus

Enhanced Security
Access AWS through private, secure connections, bypassing the public internet to minimise security risks

Greater Flexibility
Directly connect to AWS via flexible connectivity options with sub-rate capability such as SUNeVision Cloud eXchange (SCX) to meet dynamic business needs

Consistent Network Performance
Directly and privately transfer large amounts of data between AWS and MEGA Campus with planned routes and dedicated connections

Improved Efficiency
Efficiently provision multiple connections on MEGA Campus with faster provisioning time

MEGA i Data Centres Campus

About SUNeVision

SUNeVision (SEHK: 1686), the technology arm of Sun Hung Kai Properties (SEHK: 0016), is the largest data centre provider in Hong Kong. We provide industry-leading carrier and cloud-neutral data centre services with global top 10 connectivity. We connect providers of telecommunications, cloud, ISP, CDN, OTT from local, the mainland and global with enterprises of different businesses on our Asia leading data centre ecosystem.

About MEGA Campus

SUNeVision forms MEGA Campus by extending the connectivity edge from highly connected MEGA-i to other high-tier data centres, including MEGA Two and MEGA Plus.

Facilities on MEGA Campus are interconnected through high-performance dedicated fibres and around 15,000 cross-connects.

Together with City PoPs of major submarine cables in our facilities, we enable our customers for direct connections to multi-cloud platforms and multi-cloud exchanges with the best connectivity in town. We are committed to supporting Hong Kong as a regional information hub and a strategic gateway to the mainland.
